

Testing create\_item()

```
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 1
Enter the item: Lilia
Item saved successfully!
Do you want to add another item (Y/N)? y
Enter the item: Soto
Item saved successfully!
Do you want to add another item (Y/N)? y
Enter the item: Llamas
Item saved successfully!
Do you want to add another item (Y/N)? y
Enter the item:
You can't add an empty value.
Do you want to add another item (Y/N)? n
Okay, no more items added.
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 5
Item: Lilia
Item: Soto
Item: Llamas
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 
```

Testing search\_item():

```
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 2
Which position were you looking for?: 1
Item at position 1: Lilia
Do you want to search for another item (Y/N)? y
Which position were you looking for?: 2
Item at position 2: Soto
Do you want to search for another item (Y/N)? y
Which position were you looking for?: 3
Item at position 3: Llamas
Do you want to search for another item (Y/N)? y
Which position were you looking for?:
Error: You must enter a valid integer.
Do you want to search for another item (Y/N)? y
Which position were you looking for?: 7
That position does not exist.
Do you want to search for another item (Y/N)? n
Search ended.
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 
```

Testing update\_item():

```
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 3
Which position do you want to change?: 2
What would you like to replace it with?: Perez
Position updated successfully!
Do you want to replace another item (Y/N)? y
Which position do you want to change?:
Error: You must enter a valid integer.
Do you want to replace another item (Y/N)? y
Which position do you want to change?: 4
That position does not exist.
Do you want to replace another item (Y/N)? n
Changes finished.
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 5
Item: Lilia
Item: Perez
Item: Llamas
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 
```

Testing delete\_item() and read\_items():

```
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 4
Which position do you want to delete?: 2
Position deleted successfully!
Do you want to delete another item (Y/N)? y
Which position do you want to delete?:
Error: You must enter a valid integer.
Do you want to delete another item (Y/N)? y
Which position do you want to delete?: 6
That position does not exist.
Do you want to delete another item (Y/N)? y
Which position do you want to delete?: Uno
Error: You must enter a valid integer.
Do you want to delete another item (Y/N)? n
Deletion process finished.
```

```
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 5
Item: Lilia
Item: Llamas
```

```
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
```

Enter an option between 1 and 6:

Testing that the dashboard works correctly, that it handles errors and that it does a nice ending:

```
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 8
Please choose a number between 1 and 6.
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6:
Please enter a valid number.
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: Uno
Please enter a valid number.
-- CRUD Operations with Lists --
1. Add items to the list
2. Search items in the list
3. Update items in the list
4. Delete items from the list
5. List items
6. Exit
Enter an option between 1 and 6: 6
See you next time!
